

## FICHE MISSION : "ADDUCTION D'EAU AU TAJIKISTAN"

---

<b>Pôle</b>	Appui
<b>Section</b>	Adduction d'eau
<b>Commanditaire</b>	Mission East
<b>Date publication</b>	26/7/2019
<b>Etat</b>	Urgent

### DESCRIPTION

Mission East's Tajikistan team is looking for one or two water engineering interns who could carry out some assessments of water infrastructure in Tajikistan, and monitor some of the ongoing construction work under our WASH project in Southern Tajikistan. Flights, food, accommodation and an interpreter would be covered by Mission East. We estimate this to take 6-8 weeks - to be defined more accurately after discussions with the team on site. But ideally we'd like to send someone out in August. This would be an excellent experience for a recent graduate.

**Les réponses doivent être adressées à [candidatmission@isf-iai.be](mailto:candidatmission@isf-iai.be)**

### CARACTERISTIQUES

<b>Durée mission</b>	6 à 8 semaines
<b>Récurrence</b>	Ponctuelle
<b>Localisation</b>	Tajikistan
<b>Pré-requis</b>	-Quelques connaissances en techniques d'adduction d'eau
<b>Délivrables</b>	Bonne exécution des travaux sur le terrain
<b>Deadline</b>	30/8/2019
