DESCRIPTION :

ENERGY SPECIALIST – field placement

As Energy specialist, you design, implement, manage and supervise the installation of new systems and/or rehabilitation work in order to ensure the level of quality required.

You have to ensure the continuity of service and the patients, staff and equipment protection. You manage and coach a local team. You can also be asked to negotiate agreements and required permissions, you have regular contacts with the relevant authorities and you ensure a correct design, implementation and hand-over of the work.

PREREQUISITES

- Diploma in electro-mechanics or electricity (technician or engineer)
- Certificate electrician with recognized experience
- 2 years of relevant professional experience
- Good French and English language skills
- Knowledge of renewable energies and energy-efficient techniques are an asset
- Expertise in HVAC (Heating, ventilation, Airconditioning) is an asset

GENERAL CRITERIA

- Embracing the values of the MSF Charter
- Commitment for two years
- Being willing to work in unstable political contexts and conflict areas
- Being willing to leave without your family/partner
- Being in good health
- Excellent team player
- Curious to go and work in challenging contexts
- Flexible mindset and intercultural awareness

WHAT WE OFFER

- A fixed-term contract
- Monthly pay
- Medical coverage
- Payment of all mission-related expenses (transport, accommodation)
- A daily allowance (per diem) during the mission
- The opportunity to work and quickly take on responsibilities in humanitarian situations and varied medical programmes
- Personalised career development, with access to different levels of training, in order to grow within the organisation

LENGTH OF MISSION

- 6 to 12 months

HOW TO APPLY

Applications are only be accepted through our online application form: <https://www.msf-azg.be/en/job/energy-specialist>

Please ensure that you adhere to all the criteria before applying.

If you are recruited - after a competencies based selection process - you are placed in what we call a 'pool' or a database of available aid workers. As soon as a project has a suitable position for you, we send you on mission. This means you have to be willing to leave according to humanitarian needs, to any country. In return, we guarantee a dynamic and stimulating work environment alongside multicultural colleagues and personal career development throughout several missions.
